

# MASC Country Report 2021

## 1. Country

## 2. Prepared by (Name, Email, Institution)

**3. Please describe any new experimental resources and/or software tools available to Arabidopsis researchers that have been initiated or funded in your country in 2020 or early 2021.**

## 4. Please provide a paragraph describing the general impact of the COVID19 pandemic on the scientific community in your country

2020 has been a year like no other so we'd be grateful if you could provide a brief paragraph about the impact of COVID19 on the research community in your country. This will help the MASC annual report to remain a contemporary document describing our global research community.

## 5. Planned events for 2021 and 2022

Please provide a list of relevant virtual and in-person conferences, workshops and outreach events that will be hosted in your country over the coming years. This will help establish the MASC report as a forward-looking document.

## 6. Selected Publications

Please select up to **3 publications** from the past year led by a researchers from your country. We would be very grateful if you could provide just a **single sentence** describing why you are highlighting each paper.

## 7. Major Funding Sources

Please provide name and link to the funding sources that are responsible for supporting the Arabidopsis research in your country.

## 8. Dissemination of the MASC report

To save money we will be only able to send out two hard-copies of the MASC report to each country. If you would like to receive these copies please provide full postal addresses.

As ever MASC will be available freely available online.

Please also include the email address of anyone to whom you would like us to circulate the electronic report. This could include contacts within relevant funding bodies.

**Thanks very much!!**
